Banner to the Cloud: Good to Know

Banner to the Cloud: Good to know

- Chrome is the preferred Ellucian browser when you use ApplicationNavigator.
- During the Banner to the Cloud transition, ApplicationNavigator will have an orange theme to help distinguish between what is production on-premise and what is testing in the cloud. Once we are live in the cloud, Banner will be reset to the familiar purple/blue theme that users currently see.
- Here are the normal maintenance windows we set with Ellucian:
  - Prod
    - Daily (1 hour) – 12:01am-1:00am EST
    - Weekly (4 hours) – Sundays, 12:01am-4:00am EST
    - Monthly (8 hours) – 2nd Sunday of every month, 12:01am-8:00am EST
  - Non-Prod
    - Daily (1 hour) – 8:00am-9:00am EST
    - Weekly (4 hours) – Wednesdays, 8:00am-12:00pm EST
    - Monthly (8 hours) – 1st Monday of every month, 8:00am-4pm EST
