4 things to know:

1. Google keeps your data secure
2. There are no ads in G Suite for Education core services
3. Google supports compliance with industry regulations and best practices
4. You have clear information about Google’s privacy and security policies

From Google

"We keep your data secure: **Schools own their data**—it’s our responsibility to keep it secure. Google builds and operates our own secure servers and platform services, and we make it easy for administrators to monitor and manage data security."

"Google supports compliance with industry regulations and best practices: Our services support compliance with privacy and security requirements. Independent organizations have audited our services, ensuring our data protection practices meet demanding standards."
