

Importing Question Banks

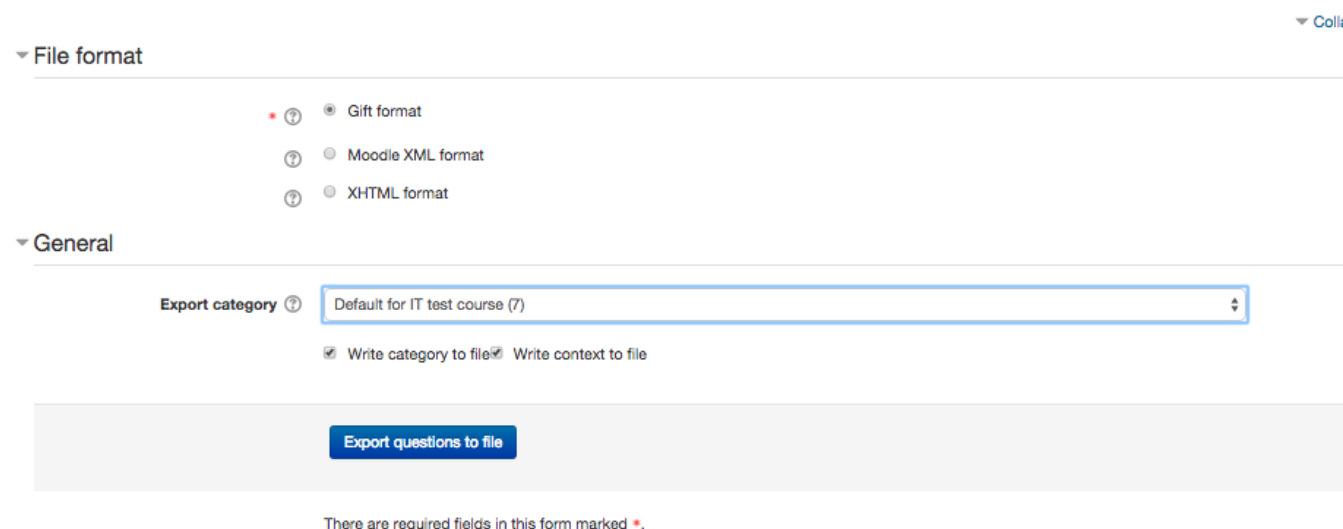

Importing Question Banks

Exporting

First, log in to the course from which you wish to export your question bank from. Go to Administration>Course Administration>Question Bank>Export.

In the Export questions to file screen, pick Gift format and then choose the category from which your question bank resides. Click the "Export questions to file" button.

A screenshot of the Moodle 'Export questions to file' form. The form has a 'File format' section with three radio button options: 'Gift format' (selected), 'Moodle XML format', and 'XHTML format'. Below this is a 'General' section with a dropdown menu for 'Export category' set to 'Default for IT test course (7)'. There are two checkboxes: 'Write category to file' and 'Write context to file', both of which are checked. At the bottom of the form is a blue button labeled 'Export questions to file'. A note at the bottom of the page states: 'There are required fields in this form marked *.'

You will receive this confirmation screen. Click the "Continue" button when the files is done downloading.
