

# Go links

Lehigh offers a service called Go links for Faculty and Staff. Go links offer a shortened, custom URL that is easy to remember and ends in lehigh.edu. You can set up a Go link at [go.lehigh.edu](https://go.lehigh.edu). Read about go links at [LTS Service Description Page](#)

## To set up a go link...

1. Have a link that you want to others to use.
2. Think of a word or phrase for your go link. For example, if your link is a survey, you may want to make a go link "go.lehigh.edu/mysurvey."
3. Log into [go.lehigh.edu](https://go.lehigh.edu) and fill out the form. Note that some go links require approval.

## Questions and answers about go links:

- ***What forms of URL can I use for go links?*** A go link can be of one of two formats: [go.lehigh.edu/anytext](https://go.lehigh.edu/anytext) or [lehigh.edu/go/anytext](https://lehigh.edu/go/anytext)
- ***What if my go link is being used by someone else?*** The system won't let you use a go link that is already in use.
- ***A go link used by my department has expired, or is about to expire. It was created by a former staff member or we don't know who created it. What should we do?*** Contact the LTS Help Desk – they will direct you to an LTS account manager who can assist you.
- ***How do I see all the go links I have requested?*** Go to [go.lehigh.edu](https://go.lehigh.edu) and click on the Manage your existing redirects below the big, blue Let's go button.
