How To Find Your Citrix Client Version Number (and Check for Updates)

For Windows:

- Find the Citrix Receiver (or Workspace) icon in the Notification Area on your Taskbar in the bottom right corner of your screen.

  ![Citrix Receiver icon on Taskbar](image)

- Right-click on the Citrix Receiver icon

- Click on Advanced Preferences

  ![Advanced Preferences menu](image)

- The bottom of the Preferences window will display your version number in the About: section, and you can also check for updates.
For Mac:

• Find the Citrix Receiver icon in the Menu Bar at the top of your screen

• Click on the Citrix Receiver icon

• Click on About (note that you can also check for updates here)
• The version number will be displayed in the new window
