Parent Access to Student Records

Getting Started

If your son or daughter authorizes your access, you can view their secure information such as financial and student records, class schedules, grades, in compliance with the Family Education Rights and Privacy Act (FERPA) and the E-signature Act of 2004. Lehigh will send a letter to parents of first year students who could be identified --that is, parents who are named in the child's admissions application--with information about this service prior to the start of the first term. If you did not receive this information, contact the Registrar's Office at ras@lehigh.edu.

The letter from the Registrar's Office contains everything you need to get set up.
