Disposal of Personally-Owned Computer Equipment

As of December 10, 2018, personally-owned computers, small devices, and wires can be disposed of at/by Lehigh:

1. Drop small devices and equipment at designated drop-off spots on campus (see dropoff location list as of 12/10/18). While we recommend that you wipe your hard drive prior to disposal to protect your personal data, hard drives will be shredded and batteries will be appropriately recycled.
2. To inquire about disposal of desktop PCs or larger items, contact Glenn Strause at 610-758.310 or ghs2@lehigh.edu.

NOTE: DO NOT DROP OFF LARGE ITEMS such as TVs, printers, scanners, etc. Read more about the campus e-waste program.
