PaperCut Mobility Print

Mobility Print is a feature of PaperCut that lets you add LTS Public Site printers to your laptop, smartphone, and tablet just like a regular local printer.

IMPORTANT:

- You must be connected to the lehigh Wi-Fi, LAN, or the VPN if off-campus, in order to add printers and print to printers via Mobility Print.
- macOS users: you will be prompted for a username and password after submitting a print job via Mobility Print—use your Lehigh username/password.
- Make sure you have enough PaperCut points to print. Check your points at: https://papercut.cc.lehigh.edu:9192/user

Follow the vendor instructions for your device:

- Windows
- macOS
- iOS
- Android
- Chrome OS
